ENSENADA---We are enjoying the Commodore's Cruise with past and present Commodores of our members clubs. The depth of experience of those here is remarkable. I have huge respect for their leadership and skills. And, to pull it all off with good humor and friendship is a rare commodity. If your club was not able to attend, make every effort to join us next year! You'll be glad you did!!

Coming soon is our annual Membership Workshop that will be valuable to your clubs, and November's SCYA elections and membership luncheon at South Shore Yacht Club in Newport Beach. We hope to see you at both!

ENSENADA-- Now that we're into the

Fall Season, the holidays will be coming fast and furious! First things first! The 2019 SCYA Commodores Cruise was this weekend at the Hotel Coral. This is a beautiful resort area in a 5-star hotel with every room having a view of Ensenada Bay. It was a great turnout!

Of course, there were the traditional stops at Papas N' Beer and Hussongs. NOSA treated all the attendees to a wine tour in the Guadalupe Valley

which has over 200 wineries. This was a real treat.

Halloween makes a spooky appearance at the end of this month. Many of our member yacht clubs plan fun festivities around this time of year. Some yacht clubs feature races with all crew in costume. Sounds like a great way to get out on the water and have some fun!

**Trump's E15 Policy Being Challenged in Federal Court**  
*Parimal M. Rohit*

WASHINGTON, D.C.—A coalition of advocacy groups representing oil, maritime and motorcycle interests has filed a petition in federal court, seeking a formal and legal review of an Environmental Protection Agency (EPA) final rule allowing for expanded sales of gasoline with 15 percent ethanol. The lawsuit, filed in early August against the EPA and its administrator, Andrew Wheeler, was brought by the American Petroleum Institute, American Motorcyclist Association, National Marine Manufacturers Association (NMMA) and Citizens Concerned About E15.

The petitioners are demanding a review of the recently implemented final rule on expanded E15 sales, claiming the grounds of its approval was “arbitrary, capricious, an abuse of discretion or otherwise not in accordance with law.” EPA’s final rule on expanded E15 sales, according to NMMA and the other three parties filing the claim, was also enacted “in excess of statutory jurisdiction, authority or limitations” and was “adopted without observance of procedure required by law.”

All four parties jointly filed their complaint in the United States Court of Appeals in Washington, D.C., on Aug. 9. The final rule listed “marine service stations” as an example of “potentially affected entities” by the E15 ruling. Pres. Donald J. Trump, in carrying out a campaign promise, directed the EPA to initiate a rule making E15 more accessible on the market. The directive, which was issued in October 2018, eventually materialized in a final rule, which allowed E15 to be available between May and September each year. E15, prior to the final rule, could not be sold in those months.

EPA staff stated the final ruling would create parity in the way the E10 and E15 are treated under the agency’s regulations. The final rule, according to EPA staff, would also increase transparency and deter manipulation or anti-competitive behaviors in the “renewable identification number,” or RIN, market.
