

2026 SCYA Racing Club of the Year Criteria

Introduced in 2024, Racing and Cruising Club of the Year was created to give member clubs that do not have full programs an opportunity to compete and be recognized for the breadth and volume of their racing and/or cruising programs.

Racing Club of the Year does not distinguish between membership categories—all clubs in the Associate, Regular, and Senior Categories will compete against each other. Interim clubs are encouraged to compete in their eligible membership category. Using SCYA Bylaws as guidance, Interim member COY competition categories are defined as follows:

- Associate clubs having a dues paying membership of up to 199 households.
- Regular clubs having a dues paying membership of 200 to 299 households.
- Senior clubs having a dues paying membership of at least 300 households.

Important Deadlines

1. The program runs from November 1, 2025 through October 31, 2026.
2. January 15, 2026: Submit club Yearbook data to SCYA, appointing Club COY Coordinator for 2026 (this data collection form was sent to your club's Commodore).
3. November 7, 2026: Submit Racing COY Binder at the SCYA General Meeting.

Guidelines for a Club Submission

- The format is a dedicated Racing COY three-ring binder with tabs for each event. Electronic submission of binders is prohibited.
- The Club COY Coordinator should keep data and documentation current each month.
- The Club COY coordinator must provide complete and accurate data and supporting documentation (in chronological order) for each event to substantiate the points claimed. For example, the event flyer, Notice of Race, Sailing Instructions, list of participants and winners. Event pictures are encouraged.
- Submit Racing COY binder at the November SCYA General Meeting.
- The COY Committee will not gather supporting documentation. Links to websites or event pages are not accepted and will not be counted.
- After scoring by the COY Committee, Clubs may pick up their binders at the annual Change of Command/General Membership Meeting in January. Officers from all SCYA Clubs will have the opportunity to see the COY binders submitted by clubs that took part in COY during the prior year if they attend the SCYA Installation. The binder records a valuable Club history for the year and should be preserved for future reference.

2026 SCYA Racing Club of the Year Criteria

Critical Requirements and Point Structure

1 point will be awarded for each 2 events for clubs hosting regattas for closed course sailboat races. An event consists of 1 or more individual races conducted on 1 or more days. Point-to-point race events will also be considered on an individual basis, e.g. beer can races.

1 point will be awarded for each 8 events for clubs hosting regattas for model yacht races. An event consists of 1 or more individual races conducted on 1 or more days.

1 bonus point will be awarded for clubs hosting 25 or more regattas where model yacht races shall be calculated on a 4:1 ratio. For example, 20 closed course sailboat races + 20 model yacht races = $20 + (20/4) = 25$ total regattas.

Tie-Breaker Formula

In the event of a tie, the following formula will be used to determine the winner:

1 point for the greatest number of boats participating across all events. To ensure the possibility of calculating the tie-breaking point for your club, **you must include a list of boats participating for each event in your club's Racing COY binder.**

Need Help?

If you have questions or require clarification of Racing Club of the Year (COY) criteria contact **SCYA COY Chairpersons:** Sylvia Wheeler (ForSylviaW@aol.com) & David Campagnari (KDavidCamp@gmail.com).
